ITEM 2.02. Results of Operations and Financial Condition

The Registrant's news release dated April 22, 2026, regarding its first-quarter results of operations and financial condition is attached hereto as Exhibit 99.

The attached news release includes references to the following financial measures that were not prepared in accordance with generally accepted accounting principles in the United States (non-GAAP measures): free cash flow and ratios based on free cash flow. The company believes these non-GAAP measures provide insight into its liquidity, cash generating capability and the amount of cash potentially available to return to shareholders, as well as insight into its financial performance. These non-GAAP measures are supplemental to the comparable GAAP measures. Reconciliation to the most directly comparable GAAP measures is included in the "Non-GAAP financial information" section of the news release.

TI reports first quarter 2026 financial results and shareholder returns

Conference call at 3:30 p.m. Central time today on ti.com/ir

DALLAS (April 22, 2026) – Texas Instruments Incorporated (TI) (Nasdaq: TXN) today reported first quarter revenue of \$4.83 billion, net income of \$1.55 billion and earnings per share of \$1.68. Earnings per share included a 5-cent benefit that was not in the company's original guidance.

Regarding the company's performance and returns to shareholders, Haviv Ilan, TI's chairman, president and CEO, made the following comments:

- "Revenue increased 9% sequentially and 19% from the same quarter a year ago with growth led by industrial and data center.
- "Our cash flow from operations of \$7.8 billion for the trailing 12 months again underscored the strength of our business model, the quality of our product portfolio and the benefit of 300mm production. Free cash flow for the same period was \$4.4 billion.
- "Over the past 12 months we invested \$3.9 billion in R&D and SG&A, invested \$4.1 billion in capital expenditures and returned \$6.0 billion to owners.
- "TI's second quarter outlook is for revenue in the range of \$5.00 billion to \$5.40 billion and earnings per share between \$1.77 and \$2.05."

Free cash flow, a non-GAAP financial measure, is cash flow from operations less capital expenditures, plus proceeds from U.S. CHIPS and Science Act (CHIPS Act) incentives.

Non-GAAP financial information

This release includes references to free cash flow and ratios based on that measure. These are financial measures that were not prepared in accordance with GAAP. Free cash flow is calculated as cash flows from operating activities (also referred to as cash flow from operations) less capital expenditures, plus proceeds from CHIPS Act incentives.

We believe that free cash flow and the associated ratios provide insight into our liquidity, our cash-generating capability and the amount of cash potentially available to return to shareholders, as well as insight into our financial performance. These non-GAAP measures are supplemental to the comparable GAAP measures.

Reconciliation to the most directly comparable GAAP measures is provided in the table below.

<i>(In millions)</i>	For Three Months Ended March 31,	For 12 Months Ended March 31,		Change
	2026	2026	2025	
Cash flow from operations (GAAP) *	\$ 1,520	\$ 7,824	\$ 6,150	27 %
Capital expenditures	(676)	(4,103)	(4,695)	
Proceeds from CHIPS Act incentives	555	630	260	
Free cash flow (non-GAAP)	\$ 1,399	\$ 4,351	\$ 1,715	154 %
Revenue		\$ 18,438	\$ 16,049	
Cash flow from operations as a percentage of revenue (GAAP)		42.4%	38.3%	
Free cash flow as a percentage of revenue (non-GAAP)		23.6%	10.7%	

* Includes cash benefits of \$335 million and \$588 million from the CHIPS Act ITC used to reduce income taxes payable for the twelve months ended March 31, 2026 and 2025, respectively.

This release also includes references to operating taxes, a non-GAAP term we use to describe taxes calculated using the estimated annual effective tax rate, a GAAP measure that by definition does not include discrete tax items. We believe the term operating taxes helps to differentiate from effective taxes, which include discrete tax items.

Notice regarding forward-looking statements

This release includes forward-looking statements intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. These forward-looking statements generally can be identified by phrases such as TI or its management "believes," "expects," "anticipates," "foresees," "forecasts," "estimates" or other words or phrases of similar import. Similarly, statements herein that describe TI's business strategy, outlook, objectives, plans, intentions or goals also are forward-looking statements. All such forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those in forward-looking statements.

We urge you to carefully consider the following important factors that could cause actual results to differ materially from the expectations of TI or our management:

- Economic, social and political conditions, and natural events in the countries in which we, our customers or our suppliers operate, including global trade policies;
- Our ability to compete in products and prices in an intensely competitive industry;
- Market demand for semiconductors, particularly in the industrial and automotive markets, and customer demand that differs from forecasts;
- Losses or curtailments of purchases from key customers or the timing and amount of customer inventory adjustments;
- Evolving cybersecurity and other threats relating to our information technology systems or those of our customers, suppliers and other third parties;
- Our ability to successfully implement and realize opportunities from strategic, business and organizational changes, or our ability to realize our expectations regarding the amount and timing of associated restructuring charges and cost savings;
- Our ability to develop, manufacture and market innovative products in a rapidly changing technological environment, our timely implementation of new manufacturing technologies and installation of manufacturing equipment, and our ability to realize expected returns on significant investments in manufacturing capacity;
- Availability and cost of key materials, utilities, manufacturing equipment, third-party manufacturing services and manufacturing technology;
- Our ability to retain, train and recruit skilled personnel and effectively manage key employee succession;
- Product liability, warranty or other claims relating to our products, software, manufacturing, delivery, services, design or communications, or recalls by our customers for a product containing one of our parts;
- Financial difficulties of our distributors or semiconductor distributors' promotion of competing product lines to our detriment; or disputes with current or former distributors;
- Our ability to maintain or improve profit margins, including our ability to utilize our manufacturing facilities at sufficient levels to cover our fixed operating costs, in an intensely competitive and cyclical industry and changing regulatory environment;
- Compliance with or changes in the complex laws, rules and regulations to which we are or may become subject, or actions of enforcement authorities, that restrict our ability to operate our business or subject us to fines, penalties or other legal liability;
- Changes in tax law and accounting standards that impact the tax rate applicable to us, the jurisdictions in which profits are determined to be earned and taxed, adverse resolution of tax audits, increases in tariff rates, and the ability to realize deferred tax assets;
- Our ability to maintain and enforce a strong intellectual property portfolio and maintain freedom of operation in all jurisdictions where we conduct business; or our exposure to infringement claims;
- Our ability to make principal and interest payments on our debt when due;
- Instability in the global credit and financial markets; and
- Impairments of our non-financial assets.

For a more detailed discussion of these factors, see the Risk factors discussion in Item 1A of TI's most recent Form 10-K. The forward-looking statements included in this release are made only as of the date of this release, and we undertake no obligation to update the forward-looking statements to reflect subsequent events or circumstances. If we do update any forward-looking statement, you should not infer that we will make additional updates with respect to that statement or any other forward-looking statement.

About Texas Instruments

Texas Instruments Incorporated (Nasdaq: TXN) is a global semiconductor company that designs, manufactures and sells analog and embedded processing chips for markets such as industrial, automotive, data center, personal electronics and communications equipment. At our core, we have a passion to create a better world by making electronics more affordable through semiconductors. This passion is alive today as each generation of innovation builds upon the last to make our technology more reliable, more affordable and lower power, making it possible for semiconductors to go into electronics everywhere.
