

Texas Instruments Recognizes 2005 Supplier Excellence Award Winners

Honor Given to 18 Companies that Deliver Superior Value and Service

DALLAS (April 3, 2006) -- Texas Instruments Incorporated (TI) (NYSE: TXN) announced that 18 businesses received the company's 2005 Supplier Excellence Award. These recipients are a select few chosen from TI's large worldwide supplier base as a result of their outstanding performance and continuous improvement in supplying materials, equipment and services to Texas Instruments.

"TI requires excellence from its global supply chain, and the Supplier Excellence Awards (SEA) recognize our best suppliers for their outstanding performance," said Rob Simpson, vice president, Worldwide Procurement and Logistics, TI. "These companies contribute greatly to the success of TI and our customers. The TI SEA rewards and celebrates their efforts."

TI established its Supplier Excellence Awards in 1983 as a way to honor businesses that had provided exemplary service. The awards are a key vehicle for communicating the standards the company expects of its suppliers. The businesses are evaluated on six criteria: cost, environmental responsibility, technology, responsiveness, assurance of supply and quality.

The 2005 TI Supplier Excellence Award winners include:

Company	Product or Service
Ardentec	Wafer Probe Services
Austin Commercial	Construction Services
Belcan TechServices	Supplemental Labor
Corning Incorporated	DLP® Windows
Desert West Technologies, LLC	Reticle Cassettes
